- Same look as surface mount box N200.116.
- For all 45x45 modules.
- Easy to install.
- Integrated flush mounting ring.
- Colour white (RAL 9010).
- Ivory version available.
- UK version available.

Description

Application

The Coverplate is designed to be used with all 45 x 45 outlets either Copper or Fibre. It consists of a plastic flush mounting ring and a central plate.

Available versions

- European (outer dimensions : 80x80 mm)
- Colour white (RAL 9010)
- Also available in ivory (RAL 9002)
- UK version (outer dimensions : 86x86 mm) available in white (N800.421) and ivory (N800.422)

Installation

The plastic flush mounting ring will be fixed on the wall and accepts the 45 modular outlet for Snap-in connectors or the PCB versions. The central plate clicks in the plastic flush mounting ring.

Advantages

- Installation of 45 outlets by a simple click
- Plastic : UL 94 V0
